in zero degrees of empathy a new theory of human cruelty and kindness simon baron cohen takes fascinating and challenging new look at what exactly makes our behaviour uniquely human how can we ever explain human cruelty we have always struggled to understand why some people behave in the most evil way imaginable while others are completely self sacrificing is it possible that rather than thinking in terms of good and evil all of us instead lie somewhere on the empathy spectrum and our position on that spectrum can be affected by both genes and our environments from the nazi concentration camps of world war two to the playgrounds of today simon baron cohen examines empathy cruelty and understanding in a groundbreaking study of what it means to be human fascinating dazzling a full scale assault on what we think it is to be human sunday telegraph highly readable this is a valuable book charlotte moore spectator important humane and immensely sympathetic richard holloway literary review

an award winning psychologist draws on years of research to unveil a simple but persuasive hypothesis for a new way to think about evil new york times how can we explain both cruelty and kindness to award winning psychologist simon baron cohen the explanation for cruelty is low levels of empathy and the explanation for kindness is high levels of empathy in the science of evil baron

cohen draws on decades of research to develop a new brain based theory of human cruelty and kindness he explores the social and biological factors that can influence our empathy levels explains the key distinction between cognitive and affective forms of empathy and shows how low empathy can lead to dehumanizing behavior featuring a new introduction by the author the science of evil will continue to challenge our understanding of human cruelty

psychometrics and psychological assessment principles and applications reports on contemporary perspectives and models on psychological assessment and their corresponding measures it highlights topics relevant to clinical and neuropsychological domains including cognitive abilities adaptive behavior temperament and psychopathology moreover the book examines a series of standard as well as novel methods and instruments along with their psychometric properties recent meta analytic studies and their cross cultural applications discusses psychometric issues and empirical studies that speak to same explores the family context in relation to children s behavioral outcomes features major personality measures as well as their cross cultural variations identifies the importance of coping and resilience in assessing personality and psychopathology examines precursors of aggression and violence for prediction and prevention

this book offers a new standpoint to understanding tolerance to human diversity by approaching it from the perspectives of cognitive developmental and prosocial psychology emphasising the positive aspects of social perception and behaviour it invites readers to re consider tolerance not simply as the opposite of prejudice but as something that can in fact coexist with prejudice and intolerance drawing on original empirical research conducted with children adolescents and young adults the book maps the response patterns for tolerant judgement and justification including psycho developmental factors it explains how tolerance regarding differences of colour creed and culture is based on underlying beliefs that guide the reasoning process to support judgements about human diversity showcasing emerging theory and a new methodology of data collection that goes beyond common approaches this book outlines a unique potential developmental trajectory for tolerance to human diversity based on fairness empathy and reason the book challenges students researchers and general readers across the fields of psychology human ethics and moral philosophy with its new insights into the character of prosocial beliefs

this volume was first published by inter disciplinary press in 2016 the nature of empathy its potential for healing and harm and its potency to effect change for good or ill at inter personal ecological and global levels are key themes represented in this interdisciplinary volume section one looks at physiological and philosophical roots of empathy exploring neurological factors as well as the question of human selfhood in relation to the other the notion of wrong empathy then comes under scrutiny where the potential for empathic responses to upturn moral codes is examined this leads into a focus on the written word with exploration of written text and the act of writing on empathic responses the scope is widened in the final sections to focus on ways to teach empathy and potential global effects of expanded empathic awareness amidst critical challenges facing humanity today it poses the crucial question how can we find more peaceful communion with those whose differences we fear

emerging as affirmative pastoral caregivers beyond gender binaries gender creative promise uniquely brings a gender diverse theological imagination to the field of pastoral theology supplemented by deploying a gender creative interpretative lens on scripture the reader is introduced to an array of persons diverse in their gender variance four continua of gender sex identity expression attraction a gender affirmative psychotherapeutic model as a template for the field of pastoral theology common resilience strategies that transgender persons employ in the face of cultural oppression and aspersion benefits derived from religious affiliation that can enhance resilience and scripturally based principles for delivering affirmative pastoral caregiving beyond gender binaries the author encourages readers to look within and wrestle with the complexities of their own gendered selves while journeying alongside him to emerge as pastoral change makers in their places of teaching ministry and caregiving

this volume explores the relationship between representation affect and emotion in texts for children and young adults it demonstrates how texts for young people function as tools for emotional socialisation enculturation and political persuasion the collection provides an introduction to this emerging field and engages with the representation of emotions ranging from shame grief and anguish to compassion and happiness as psychological and embodied states and cultural constructs with ideological significance it also explores the role of narrative empathy in relation to emotional socialisation and to the ethics of representation in relation to politics social justice and identity categories including gender ethnicity disability and sexuality addressing a range of genres including advice literature novels picture books and film this collection examines contemporary historical and canonical children s and young adult literature to highlight the variety of approaches to emotion and affect in these texts and to consider the ways in which these approaches offer new perspectives on these texts the individual chapters apply a variety of theoretical approaches and perspectives including cognitive poetics narratology and poststructuralism to the analysis of affect and emotion in children s and young adult literature

are we rational creatures do we have free will can we ever know ourselves these and other fundamental questions have been discussed by philosophers over millennia but recent empirical findings in psychology and neuroscience suggest we should reconsider them this textbook provides an engrossing overview of contemporary debates in the philosophy of psychology exploring the ways in which the interaction and collaboration between psychologists and philosophers contribute to a better understanding of the human mind cognition and behaviour miyazono and bortolotti discuss pivotal studies in cognitive psychology social psychology developmental psychology evolutionary psychology clinical psychology and neuroscience and their implications for philosophy combining the latest philosophical and psychological research with an accessible style philosophy of psychology is a crucial resource for students from either discipline it is the most up to date text for modules on philosophy of mind philosophy of psychology philosophy of mental health and philosophy of cognitive science

erfahrungswelt so wird eine rigorose wissenschaftliche herangehensweise an die sozialpsychologie präsentiert die den leser gleichzeitig interessiert und in ihren bann zieht

please note this is a companion version not the original book sample book insights 1 the paradox at the heart of human nature is that people can objectify others but they also have a natural sympathy for others that they can switch off 2 the question of how humans can be so cruel is still unanswered the answers that are available are not satisfying if the answers were sufficient the question would feel as if it had been answered and the matter settled 3 the concept of evil is inadequate to explain the actions of nazis like hitler it is a mere explanation and we need a better one i explore how people can treat each other cruelly not with reference to the concept of evil but with reference to the concept of empathy 4 empathy erosion is the process of turning other people into objects and it is done when we are solely focused on our own interests it is one of the worst things you can do to another person to ignore their subjectivity and thoughts

the follow up to the acclaimed what we believe but cannot prove a collection of thought experiments by some of the most eminent thinkers and scientists alive including richard dawkins jared diamond and steven pinker

the now popular idea that emotions have an intelligent core and the reverse that intelligence has an emotional core comes from the neurosciences and psychology similarly the fundamental sexualization of the brain the new interest in essential differences in male and female brains and behaviors is based on neuroscience research and neuroimages of emotions in sexualized brains scholars from a range of disciplines reflect on the epistemological claims that emotional intelligence ei can be located in the brain and that it is legitimate to attribute distinct kinds of emotions to the biological sexes the brain as an icon has colonized the humanities and social sciences leading to the emergence of such new disciplines as neurosociology neuroeconomics and neurophilosophy neuroscience and psychology now have the power to transform not only the practice of science but also contemporary society these developments the essays in this volume show will soon affect the very heart of gender studies

51 in search of erotic intelligence esther pearl utne reader september october 2003 pearl is a psychotherapist who grew up in belgium and has lived in many other countries her global perspective confronts some american beliefs that contribute to boring sex readers will be challenged to reconsider the applicability of equalitarian ideals directness and domesticity in order to increase their erotic intelligence 52 the merry go round of desire mark matousek tricycle summer 2004 this interview with psychiatrist mark epstein author of the ground breaking new book open to desire explores both western and traditional buddhist perspectives that have considered lust or desire as dangerous buddhists support this view in an effort to integrate lust for life as a middle path for an enlightened life and healthy relationships

this is a practical book on an often overlooked group older children with autism with hands on suggestions plus an overview of research it is designed to help a range of mental health and school professionals who deal with autism it addresses individual family school and community contexts and includes a

reproducible child and caregiver assessment form
